

Instant connection, instant answers

When a single market tick up or down can mean the difference of hundreds or thousands of dollars, you need to know the second it happens. Poor timing can mean the difference between making a profit or incurring a loss.

That's why you need DTN Instant, a real-time market information terminal that you can leave turned on and always connected. The satellite delivery of DTN Instant ensures that your link to vital market quotes is stable and instantaneous.

DTN Instant's real-time quotes make it possible for you to profit in these times of small margins and complex transactions. Know what to pay for commodities and what to sell them for up the value chain. Know when to hedge your purchases. Get insight into upcoming supply and demand on commodities.

But quotes alone are not enough

Even for experienced traders, quotes aren't everything. You also need timely, pertinent news and commentary to help inform your buying and selling decisions. That's why DTN Instant provides access to expert analysis from DTN/*The Progressive Farmer's* unsurpassed editorial staff, the largest in the agricultural industry. This analysis includes short recaps, enabling you to understand current market conditions without wading through volumes of information.

In addition, DTN Instant's programmable charting and analytical tools help you recognize and adapt to swings and trend changes in the market. With this information available at a glance, you'll be able to react swiftly and strategically to market fluctuations that can have a significant impact on your bottom line.

Rounding out our comprehensive package of information is news from OsterDowJones and many other premium news and analysis services.

Smart weather information can mean smarter decisions. Weather can play a major role in predicting price shifts in the market. When you subscribe to DTN Instant, you'll get DTN/*The Progressive Farmer's* unique agricultural weather data as part of the service, giving you a heads-up on weather that can affect market prices. DTN/*The Progressive Farmer* is known industry-wide for its accuracy and relevance. Armed with this ag-specific information, you'll mitigate risk and make smarter speculative investments.

DTN/*The Progressive Farmer* is the largest provider of specialized weather services for U.S. businesses, including agribusinesses. We offer the most relevant, localized weather and we adeptly connect weather data into agronomy needs and thus into production. And with this information at your fingertips, you'll make better, more profitable operational decisions.

DTN Instant works where you do

Our satellite system is rugged — you can install it in a dusty working environment or an office setting, whichever works best for you. And in the event of an Internet outage, many brokers and agribusinesses rely on DTN Instant to provide redundancy to their DTN ProphetX® our professional desktop trading application, ensuring that they're always able to get to the time-sensitive data their profitability depends on.

Whether you're making short-term trades or planning long-term strategy, your decisions need to be based on reliable, timely, well-organized information relevant to your business. That's the strength of DTN Instant — join the thousands of the top ag professionals who rely on it every day.
