

MYDTN[®] BUNDLE WITH IPAD

Your mobile command center

Top of the line tools — plus a new Apple[®] iPad[®] — for greater control, at one great low price

Bundling saves you up to \$227 a year!

We're committed to providing you with the newest, most powerful, and easiest to use technology, that keeps you connected with the information you need for an added edge and greater confidence in making business and operational decisions.

With the MyDTN Bundle with iPad, you get several of the best tools on the market in one easy-to-use format — and at a price that won't break the bank. With it, you can...

- Maximize profits with alerts, recommendations and on-the-go access to the emerging buying and selling opportunities that improve margins
- Reduce costs by eliminating weather-related risks and losses while improving efficiencies, using patented roaming and fixed location-based weather forecasts, monitoring tools and custom alerts

- Save time by quickly and conveniently making decisions from anywhere, with all of your farm management tools at your fingertips
- Be more confident in your decisions with expert, independent insight, analysis and recommendations, in both summary and detailed formats

A complete package

The MyDTN Bundle with iPad is your personal mobile command center for complete decision support freedom. It includes...

- A 64GB Apple iPad
- Military-grade case
- MyDTN with patented alerts*
- The new Ag Weather Tools app**
- And you can add your browser favorites and precision ag programs

We're proud to offer you this exciting new package with our proven tools and advice via Apple's trusted, popular, innovative technology. The iPad features a large, 10-inch screen for optimal viewing and a durable case to protect your investment. It is certain to be your trusted, constant companion for years to come, whether at home, in the field, or in your cab — wherever you go.

Includes a 64GB Apple iPad with military-grade case

* Pre-loaded
